

vehicles for transport of more than ten people, passenger cars, motor vehicles for the transport of goods, and special purpose motor vehicles, HTSUS number 8708.30.5020 covers a broader range of merchandise than in-scope brake drums. Brake drums may enter under HTSUS number 8708.30.5020 or 8708.30.5090 when combined with a hub to form an assembly. These HTSUS numbers are provided for convenience purposes only. The written description of the scope is dispositive.

Based on the product description and production process described in the sections below, this petition requests the following scope language:

*The merchandise covered by this investigation is certain brake drums made of gray cast iron, whether finished or unfinished, with an actual or nominal inside diameter of 14.75 inches or more but not over 16.6 inches, weighing more than 50 pounds. Unfinished brake drums are those which have undergone some turning or machining but are not ready for installation. Subject brake drums are included within the scope whether imported individually or with non-subject merchandise (for example, a hub), whether assembled or unassembled, or if joined with non-subject merchandise. When a subject drum is imported together with non-subject merchandise, such as, but not limited to, a drum-hub assembly, only the subject drum is covered by the scope.*

*Subject merchandise also includes finished and unfinished brake drums that are further processed in a third country or in the United States, including, but not limited to, assembly or any other processing that would not otherwise remove the merchandise from the scope of these investigations if performed in the country of manufacture of the subject brake drums. The inclusion, attachment, joining, or assembly of non-subject merchandise with subject drums either in the country of manufacture of the subject drum or in a third country does not remove the subject drum from the scope. The scope of this investigation does not include any products already covered by the AD and CVD Orders on certain chassis and subassemblies thereof from the People's Republic of China (A-570-135; C-570-136).*

*The scope also excludes composite brake drums that contain more than 40% steel by weight, while certain brake drums that meet the above criteria and that contain 40% or less steel by weight are within the scope.*
